

Peace Society

Formalization of Demonym and Flag Design

Through this decree, we formalize in writing what has been *de facto*: the demonym of the Peace Society citizens and our nation's flag design.

Demonym

We declare that citizens of the Peace Society should be called **Peaceans** (*peace-ans* or *peace-ee-ans*). This will be considered the official demonym of the nation.

Flag design

The flag of the Peace Society should consist of a white field with two black, central, and horizontal stripes. There should be a space between the two black stripes, roughly equal to the width of one stripe. The white field represents peace, while the black stripes represent strength. Together, the black stripes form an equal sign to represent equality.
